NOTIFICATION

The Advanced Studies and Research Board (ASRB), in its 41st meeting held on 22.12.2025 in the Committee Room of the University Guest House, under agenda item No. 6.2, in light of the observations recorded by the ASRB, recognized that there is a need to strengthen the functioning of the Graduate Studies Committee (GSC). It was, therefore, decided that the Director QEC should participate in the GSC meetings of the academic departments, either personally or through a designated nominee.

The QEC representative shall serve as an observer in the GSC of the academic departments. This representative other than the Director must be holding a PhD qualification. In the case of a nominee from the academic faculty, the nominee must belong to the relevant discipline/faculty/ the respective department and should be well-informed and actively engaged in research to ensure informed and effective participation.

The primary responsibility of the QEC representative will be to ensure the maintenance of the University's academic quality and standards in accordance with HEC guidelines. This measure is expected to reduce the number of observations raised by the ASRB and, at the same time, alleviate their workload and administrative burden, thereby improving the overall efficiency and quality of the GSC review process.
