

Three-DAY WORKSHOP ON QUANTITATIVE and Qualitative DATA Analysis Techniques Phase II

Aug 24-25-26, 2015

We take great pride to state that the **Department of Management Sciences, SBBU Sheringal Dir** in collaboration with **Institute of Space Technology Islamabad (IST)** has organized a three day workshop on quantitative data analysis using SPSS and AMOS software's provided in brochure attached for academicians and researchers. Real life observations in the field of research evidences that social scientists, though more strong in their research skills, lack the advanced statistical skills that are immensely important for successful completion of their research projects in due period of time. These three days workshop is an extensive training in different techniques of data analysis using SPSS as well as it's more advanced version - AMOS and advanced techniques in field of Qualitative data analysis which will significantly improve the data analysis skills of the participants. Please ensure your registrations on time as we have limited no of seat for "first come first Served" criteria.

Course Fee: This is a self financed workshop and avail the services of renowned International Trainer and researcher Dr.Zahoor Sarwar and his Team of Institute of Space Technology Islamabad at lowest cost of its kind. Registration for external participants Rs **3000** per faculty that will include **Lunch, Diner Tea & Certificate along with stay for two days in workshop. Registration for the faculty of SBBU is Rs 600 that will include tea break each day.External participants can make online payment to account no 18787900067203/branch code 1878.**
